

Gut Diagnosis SIBO Action Steps

1. Register as a provider with **BioHealth lab**.
2. Read the **Test Guide** for the BioHealth 900-C test. What new information did you learn from reading this guide that can help your patients?
3. Look at the SIBO breath test substrate comparison and discuss the differences with a partner. Decide which you feel would be best for you to use in your practice.
4. Practice discussing the results of a SIBO test with a partner.
